Loss of Cunarder's Cargo Falls Heavily on Insurers in America.

NEW YORK, Oct. 20.-The Curard the crew of the steamer Alaunia, which was sunk yesterday by a mine in English Channel, had been saved. The mage read:

'All passengers saved. As far as can trace all crew safe except two."

Another message received, the officials ev. reiterated previous information that the 243 passengers, including 21 Americans, were landed Wednesday at Faluth, so that they were not in in the disaster.

A dispatch from London last night said the captain and 163 members of the crew had been landed by a trawler.

It is reported in London that the loss on the Alaunia's cargo falls heavily on

American insurance companies.

M'DANIEL PLEADS HIS CASE TO THE PEOPLE

Buchanan County Prosecutor Defends Self Against Murder Charge in Nightly Speeches.

ST. JOSEPH, Mo., Oct. 20.—County, Prosecutor Oscar D. McDaniel is nightly carrying his case before the people at large while waiting for his

trial on a charge of wife murder to get under way.

"I hope there is no one among you who believes Crawford Township would produce such a character as I have been painted by gossip," the accused told an audience of home folks

at Wallace.
McDaniel outlined the history of his life, dwelling upon the years of his married life.

"When I was going to St. Joseph High School I loved her, he said. "Later we were married and were very happy. I have three children of school age. I crave that their father may have such a name hereafter that they may not be pointed at as children

of one unworthy.
"I crave re-election to the office I now hold. Unless I can depend on the gray matter in your brains to base your opinions on facts, the name of a son of Crawford Township may be dragged in the dust and humiliated." McDaniel motored to Wallace with his attorneys. A blowout and a puncture delayed their arrival and caused McDaniel to ask: Who's the black cat

in this crowd?"

McDaniel fears adjournment until Monday may make it impossible to obtain a verdict before election. The Court, however, feels that a jury can be empaneled in three days and the case tried in a week. Judge Ryan promised, if necessary, to hold night sessions so that the accused prosecu tor may have a chance to clear him-self before election day, Nov. 7.

HENRY S. CAULFIELD TO SIT AS APPELLATE JUDGE IN ONE CASE

He Will Act With Reynolds and Allen in Place of Nortoni, Who Resigned. Because of Gov. Major's failure to ap-

point a successor to Judge Nortoni of the St. Louis Court of Appeals, Judges Reynolds and Allen have appointed Henry S. Caulfield as provisional Judge assist them in deciding the damage suit of Robert E. McDonald vs. the Cen-

tral Illinois Construction Co.

The case was argued before the two Judges Oct. 4, but they have been unable to agree on a decision. The case has been set for reargument next Tuesday, at which time Caulfield will si

with Judges Reynolds and Allen.

Judge Nortoni's resignation was to take effect Oct. 1, but a dispatch from Jefferson City several weeks ago stated that the Governor would not appoint a cessor until after the November elec .There is no provision in law for the pay of a provisional Judge, but it has been the custom to assess the cost against the litigants. Caulfield former ly was on the appellate bench.

R., IN KANSAS, ATTACKS THE PRESIDENT'S FOREIGN POLICY

EMPORIA, Kan., Oct. 20.-Theodore Roosevelt, speaking in a driving snowtorm here last night, told a large crowd of Kansans that "Kansas of all states ould resent that phrase 'He kept us

"If Abraham Lincoln had kept us out f war there would have been no free state of Kansas," Roosevelt asserted.
"If our torefathers had believed in safety first' there would be no United States today. The phrase is nauseating a patriot acquainted with the history f our country.'

Roosevelt referred to Capt. Boyd and Meut. Adair, killed at Carrizal, and declared that five years ago he would not have believed that Americans would sit still when soldiers, acting under orders f the President, were killed.

DEATH OF MAN, 80, ACCIDENT

Jury Exonerates Negro Driver of Auto.

A Coroner's jury today found the death of George B. Marable, 80 years old, retired, 1432 North Grand avenue, due to an unavoidable accident. When crossing Grand avenue at Lindell boule-vard, Oct. 3, Marable was struck by an automobile driven by Arvell Shivers, a negro, 24 years old, 4107 Finney avenue, and sustained injuries of which he died

Testimony at the inquest showed that Shivers was driving slowly and that Marable stepped in front of the automobile. A charge of carcless driving is pending against Shivers.

HOW TO KEEP THE PIANO LOOKING NEW

Clean It the Right Way

A piano is a life-long possession. Unless proper care is used, unsightly checks and cracks sooner or later appear on the fine finished surface When that happens, only a complete refinishing will restore its beauty. The way to preserve the fine finish of your piano is to use Tobey Polish. This prevents checking by keeping the varnish elastic and new. Then your piano will not deteriorate in looks. Tobey Polish is the famous old se-cret shop formula of The Tobey Furniture Company (Chicago and New York), and used for many years on their finest pieces. This of itself is full assurance of its safety and efficiency. You can't afford to run any

Tobey Polish gives immediate results. No hard work—no rubbing no greasy film—no veneer. It beauti-fies by cleaning and restoring the original surface, whether varnish or enamel. Takes nothing off but dirt and blemishes. Leaves nothing on but the fine finish in all its original

newness.

Try it on anything from a chair to a piano. See how it maintains the brand new appearance of your automobile.

Maj. Benjamin D. Foulois, commander of the First Aero Squadron, who has been detached to visit aero manufa turing plants.

Each squadron will have 12 aeroplane of types required by regulations just compiled. It will have in addition 25 motor trucks, one seven-passenger automobile, seven motor cycles, 10 spare mo-tors, materials for the construction and repair of 12 hangars, and equipment of tools, spare parts and repair material estimated to be sufficient, for six months' maintenance; complete outfit for photographic observation, full medical supplies, 12 Lewis machine guns and the rifles, pistols and shotguns included in the equipment of an army aeroplane with the necessary ammunition.

The aviation service has ordered mor than 200 aeropianes, of various types of officers is now examining bids. Officers are concerned over the fact that the industry appears to be swamped by army requirements. The quickest deliv ery that can be obtained apparently is 60 days for the first machines. Officers are making a study of available sites for aviation schools.

Maj. Charles de F. Chandler of the signal corps, who has had many years of practical experience with balloons, has been appointed head of a new division created in the aviation section of the signal corps which will have charge of free and captive balloons, dirigibles and hydrogen generating plants. He is in New York assembling a staff preparatory to the establishment of a school for the training of officers and men for the bal-

oon service.

Two spherical and two kite balloons will be the first equipment bought for the new branch of the service. Others will be purchased as rapidly as the men to handle them can be trained. The balloon school probably will be established at Fort Omaha, Neb., or possibly at Akron, O., where it is ex-pected the first balloon equipment for

Judgment, BALTIMORE, Oct. 20.—"I never have eard until this moment that any Roman Catholic propaganda existed in Indiana or elsewhere in opposition to id Cardinal Gibbons yesterday. "I do o believe there is any truth in it For myself, I am not in politics and I never have authorized anyone to quote me as favoring either candidate for the presidency. Every Catholic voter has an inherent right to vote according to his own individual conscience, and I am sure that the Roman Catholic hierarchy of the United States would never in-

terfere with that right."
The attention of the Cardinal was directed to a dispatch from Indianapolis appearing in the Post-Dispatch on Oct. 6, telling of anti-Wilson activity among Catholics. Many persons have written o Cardinal Gibbons since the presito Cardinal Globons since the presi-dental campaign opened inquiring re-garding a report of an alleged act of discourtesy from the President. To these inquiries the Cardinal has replied repeatedly, both orally and by letter, that there is not a word of truth in

MULE'S KICK CAUSES FATALITY

James Jones, 56 years old, a neg lostier at the National Stockyards, died last night in the Deaconess hospital from being struck in the stomach by a rail which an army mule kicked off a fence at the yards Wednesday. He was standing close to the fence, on the other side, when the mule kicked. The end of the rail hit him.

Jones was kicked by another mule, and three ribs broken, two weeks ago. The mules were being bought by the

Nominee Reiterates What He Would Have Done to Prevent Lusitania Tragedy.

YOUNGSTOWN, O., Oct. 20.-Charles E. Hughes, relterating that he meant what he said in Louisville the other followed with reference to the Lusitania last night, replied to a recent utterance of Secretary McAdoo with the declaration that apparently it seemed impossible to the administration that one could many what he said. mean what he said.

mean what he said.

"Now arises the Secretary of the Treasury to complain that this was not a statement of what I would have done had the sinking occurred," Hughes said, after reiterating that he would have stated his position "unequivocally" in advance of the sinking.

Hughes also replied to a statement attributed to Secretary of War Baker in a recent speech in which Washington's soldiers in the majch to Valley Forge in the days of the American Revolution were said to be just as bad characters

were said to be just as bad characters as the Mexicans.

"I never supposed the day would come." Hughes said, "when the representative of an American administration would say that of those who gave is our liberties.

After quoting the statement attributed to Secretary Baker, Hughes read from retary Lansing's description in June last of the atrocities in Mexico, con-tained in a note to the de facto Government of Mexico. Lansing's recital of the civil strife in Mexico, with its attendant loss of American life and de-struction of American property, and that portion of the note relating to the Santa Ysabel massacre were read by Hughes verbatim.

"An administration imbued with the spirit of true Americanism," Hughes said, "would be incapable of the statement attributed to the Secretary of War.
It must bring the flush of shame to the cheek of every American that apologies for the deplorable record in Mexico should be made after this fashion.' Returns to New York.

Hughes' speech here was the last of his third presidential campaign trip. He left here at 11 p. m. for New York, where he is due this afternoon. The day was spent traveling, with three short adesses at Bay City, Saginaw and Flint, Mich. It was raining and the damp weather affected the nominee's voice.

In his speech here he said:
"The President of the United States is the trustee of executive power. Placed in control of our agencies of international intercourse, he is the guardian of the rights of the American citizens. He has no authority to surrender them, no right to impair them. Upon his firmness in maintaining them depends our security and our peace, when the Democratic platform four years ago promised that the constitutional rights of American citizens should protect them on our borders and go with themt hroughout the world, when it promised full protection of American lives and property abroad, it stated an established American princi-

"This deplorable course lowered our international prestige. When the administration did speak for American rights, its words were not taken seriously. It had made its reputation. "As a result, we have destruction of

"Now rises the Secretary of the Treasury to complain that this was not a statement of what I would have done had nevertheless the sinking occurred. But I was under the impression that when I said what I would have stated as descriptions of the statement o m advance as to what I would do, every-one would know that I stated what in fact I would have done in the described. event. The Secretary's remark shows in an illuminating way this administration's conception of the value of words. It apparently seems impossible to this administration that one can mean what he says. That is its difficulty.

"With it a threat of action does not seem to mean anything but words. My position is somewhat different. I mean what I say, and because this would have been well known and we should already have had a reputation for firm and correct policies. I repeat that the Lusitania would not have been sunk.

If Too Fat Get More Fresh Air

Lack of fresh air, it is said, weakens the oxygen-carrying power of the blood, the liver becomes sluggish, fat accumulates and the action of many of the vital organs are hindered thereby. The heart action becomes weak, work is an effort and the beauty of the figure is destroyed. Fat put on by indoor life is unhealthy, and if nature is not assisted in throwing it off, a serious case of obesity may result.

MAN FOUND DEAD IN BARN BISHOP DECLARES

Guadalajara Missionary Here. Says Capitalists Have Taken Much From Country.

Describes Its Aims and Expresses Sympathy for "Mexico for Mexicans" Idea.

Bishop Henry D. Aves of Guadalaara, missionary Bishop for the Protestant Episcopal church in Mexico peaking before a parlor meeting in the home of Mrs. Hudson E. Bridge. out of Mexico, and had given little or nothing to it.

"One who sees the name that is stamped on the rails of the Mexican oads-Carnegie-wishes," Bishop Aves said, "that the name of that great and ood iron master might be seen at melting plants of the great Guggenneim interests he must wish that at east one free hospital might bear that name in Mexico. One cannot contemplate the forest of oil derricks that tell of untold wealth flowing out of the country without the secret wish that hair is as pretty and soft as anyat least one great school might bear the name of Rockefeller or Pierce or by careless treatment—that's all-

come and enjoy the great opportunities of Mexico. On the brother's arrival ne undertook to inform him of the sit-'The Chinese,' he said, 'have all the big laundries and all the big gardens; the French have all the big fry goods stores; the Germans have all the big hardware stores; the Americans and English have all the big railways and all the big mines; and the paniards have all the big tracts of But what have the Mexicans got?' asked the brother. 'Oh, the Mexicans have all the big 'Viva Mexico!' I

One must sympathize, Bishop Ares said, with the idea of "Mexico for the Mexicans," which he said was one of the chief objectives of the revolutionary movement started by Madero, and still being carried on by Carranza. He summed up the objectives of the evolution as : (1) gaining a larger con-

trol of the country's natural resources;
(2) giving the pauper class, some 11,000,000 peons and Indians, a free foothold on the soil; and (8) the establishment of a true democracy, by giving a full and free franchise to all citizens. Incidental to the last-named objective, he said, was that of breaking down "the supposed adverse influence and ambitions of the Catholic party in Mexico."

The Bishop then told of the missionary work for which he is responsible in Mex-ico, and which includes 18 Englishspeaking congregations. This part of the work was said to be in a state of suspense, owing to the "exodus of Amercans." The native field, embracing some 36 congregations, 10 schools, a hospital and other institutional work, was described as continuing under difficult conditions. In telling of St. Andrew's school and Farm, near Guadalajara, he related that five visits of armed bandits to the school have occurred since last December. He then told of the House of Hope Hospital, at Nopala, State of Hidalgo, which is the church's only attempt at medical mission work in Mex-

SEATING ARRANGEMENTS FOR THE PAGEANT DISAPPOINTING The most complete assortment we have ever

rsons in Different Parts of the Coliseum Unable to See All of the Tableaux.
Grave defects in the seating arrange-

ments of the Coliseum marred the Epis-copal Church Pageant, which had its ond and final presentation last night. Persons who had purchased balcony eats two weeks in advance found themselves so far to the right or to the left that they were unable to see the center stage, where the principal scenes were shown. Those on the right couil see only the small right-hand stage, where some of the smaller tableaux were shown, and those on the left could see only the small stage at that side. Because of their inability to see performance which made its chief ap peal to the eye, many persons departed from the building before the Pageant

was half over. Most of the persons in arena seats could see the center stage, but those in the front rows could see only one of the side stages, the one on the side where they sat. The dead level of the, arena made it difficult for many . f those in rear sections to see over those

The three-stage arrangement was made especially for the Pageant, and the removal of the partitions will give a better view of the main stage from

The Pageant audience was nearly as large as on the first night, and the per-formance moved smoothly. Bishop Tut-tle again appeared at the front of the left-hand stage, when the tableau de-picting his early work in the far West was shown, and made a talk on his early ministry. The acting of Archiore of St. Philip's Parish, in

Save your hair! Double its beauty in just a few moments.

TALKS ON REVOLUTION 25-cent "Danderine" makes hair thick, glossy, wavy and beautiful.

Within 10 minutes after an application of Danderine you cannot find a single trace of dandruff or falling hair and your scalp will not itch. but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first -yes-but really new hair-growing

all over the scalp.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to 23 Westmoreland place, last night, said the roots, invigorates and strength-American capitalists had taken much ens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw least once in all that darkened land as it through your hair, taking one the title of a free public library. As small strand at a time. The effect one passes the many tall shafts of the is amazing—your hair will be light, fluffy and wavy, and have an appear ance of abundance; an incomparable luster, softness and luxuriance.

house of J. P. Morgan & Co. is again in England, and purported to be arranging for another gigan-tic loan to England. If I am not mistaken, this makes over a billion and a quarter loaned to the allied Governments. As long as Mr. Morgan and Wall street, and especially the powds shell and gun makers make these loans, all risk and well. Every sane man knows that next to efficient numwinning wars, for money buys food, shells, guns and powder, and hires men to fight. I have been over to Europe since this greatest of all wars started, and it's no child's play. No pen can ple-

record of such destruction of lives and property.

I think this country would do well to conserve all of its money and resources and await the time hen Europe again becomes sane, when we would able (if we keep out of that mess) to help all Europe. Lator is scarce and the poor women d children are taking the places of men in nearly all kinds of work, that men may go to the front and fight and kill one another. If anyone wants war he can get high pay in Europe today and he should be able to find a way of fighting it he goes over there and makes his wish known.

JONES OR M'DANIEL?

The presidential and gubernatorial campaigns have overshadowed the contests for minor offices, some of which are of vital importance to the community. Voters should not overlook the neessity of selecting capable and fit men, especially for offices concerned with the enforcement of law. One of the most important is that of Circuit Attorney, which is charged with the enforcement of criminal law. Whether the criminal laws are nforced or not and the community is protected. lawless and corrupt forces depend almost wholly upon the capacity and integrity of the Circuit Attorney. Under the leadership of the Post-Dispatch the people four years ago nominated and elected Judge Harvey, who has ably and honestly conducted the office. The Democrats have nomi nated Lawrence McDaniel, a capable lawyer with torney under Judge Harvey. During his service he has proved his ability and efficiency. No scan day has touched either the office or his personal

On the other hand, the Republicans have nominated Seebert G. Jones, whose service during the four years preceding 1912 led to the popular demand for Judge Harvey and for a change in the conduct of the office. Mr. Jones was first nominated through the political power of Jeptha D. Howe, who was Republican boss at the time. The public will recall the unpleasant impression caused by Mr. Howe's profitable activities in the criminal court. It will recall that in one case—the suit of ouster against the Light and Development Co. -Mr. Howe was employed as special counsel for the state while representing interests concerned in the suit. Acting as special counsel for the State, Howe was actually employed and paid by the Union Electric Light and Power Co., one of the litigants. It was brought out that he was employed on account of his connection with the Circutt Attorney.

Do the people of St. Louis want a return of conditions of this kind in the Circuit Attorney's office? Their votes will determine the question.

CAN YOU FIND ONE SUCH VOTER?

The Springfield Republican suggests a test of the charge of Mr. Roosevelt and Mr. Hughes, that Americans are hanging their heads in shame because of our foreign policy-the simple test of observing just how many of your neighbors actually are hanging their heads in shame. Such a suggestion is itself shameful. It implies that the Colonel can be wrong in anything he asserts or indorses. But why not try it as a private experiment for your own personal information?

Ask the first man you meet if he is hanging his head in shame because we are not at war with Mexico. Ask him if he is hanging his head in of war thus far. shame because we are not at war with Germany. Continue the search until you see or learn of one citizen who is bowed beneath his load of shame.

> > HELP NEEDED FOR ALBANIANS.

Friends of Albania, among whom are a num ber of well-known clergymen and newspaper editors, are appealing to the country for aid to prevent the further starvation of thousands of the people of that unfortunate country. They point out that, while Americans have contributed \$30, 000,000 for the relief of Belgium, Poland and Armenia, nothing has been done for the suffering Albanians, 200,000 of whom, mostly women and children, have actually died from starvation since the warring countries used Albania for a battle

William Willard Howard of New York, who has returned from his third trip to the hunger zone of Europe, predicts that the entire population of Albania will die of famine and pestilence unless helped. He says that in Albania corn is \$50 a bushel, flour \$80 a sack and macaron! \$5 a pound. These conditions are almost inconceivable to is, living in the midst of peace and plenty. They hould show us how grateful we should be for

having been kept out of the world conflict. And

the best way to manifest that gratitude is by helping the victims of the catastrophe. These Albanians, even more than the Belgians, were nnocent bystanders. And, if we are not to be harged with unfairness and callousness we must nelp them, to the best of our ability.

Contributions for the fund to aid the Albanians should be sent to the treasurer of the Balkar Relief Fund, Rev. Frederick Lynch, editor of the Christian Work and secretary of the Carnegie Church Peace Union, 70 Fifth avenue, New York

WILSON DOES WHILE HUGHES TALKS. Mr. Hughes, while holding out the hopes of high rotective tariffs to catch the tariff barons, says e is in favor of a tariff commission.

President Wilson is not only in favor of a tariff commission, but has approved an act creating a tariff commission.

Since a tariff commission will take the tariff out of politics and substitute a scientific for a political tariff, there doesn't seem to be any real issue between Mr. Hughes and Mr. Wilson except four years' experience as assistant Circuit Attalking about.

PRIMITIVE LABRADOR'S INTERPRETER. It was with such taking tales as "Dr. Luke of abrador" that the late Norman Duncan first fixed the interested attention of the public and they form his chief claim to appreciative remembrance. He described with insight and sympathy and occasionally with genuine pathos the hard lives of a little known people. The "element of contest" which is defined as the soul of stories is ever present in these books, and present in one of its most appealing forms, the primitive contest of a heroic, unselfish people battling with wellnigh unsubduable forces of nature for existence and giving generously and sacrificingly from their little in aid of those with less.

Of his work as a teacher, the public had small knowledge. Within the decade he had traveled much in Eastern lands and written much of their suggestions to the West. In the last few years he had made contributions of high standard to representative magazines. But in no other field was he as happy as in his moving pictures of life and adventure in bleak Labrador.

Bombastes Furloso is raging everywhere, but the campaign will soon be over.

A GASTRONOMIC TRAGEDY.

It has been well and truly said that with the sausage alone Germany might form a rampart round the world and float a navy upon her daily tide of beer.

What effect the reputed scarcity of sausage in Germany and a want of mustard will have upon her international power, prestige and influence we leave to moralizers to moralize upon, content ourselves to observe with sympathy that a shortage or shrinkage of sausage, not to mention mustard, is among the greatest gastronomic tragedies

Long ago we of the United States reconciled ourselves to frankfurter made in New York, but to the Teuton himself no substitute may be offered to appease the want of the genuine. May we hope that it is a canard, a war-lie in the heat Max Nordau has been writing on the captivities of campaign, and that in reality the important of war. WEIGHTY REASONS.

From the Springfield-Republican.
Some weighty reasons for defeating Wilso might be summarized for business men in this

During his administration, approximately speak ing, the population of the United States has in-creased from 2,736,000 to 101,300,000. The national wealth has been increased by \$41,000,000,000, or 21.9 per cent. The American debt to Europe has been reduced from \$6,500,000,000 to \$3,160,000,000 decrease of 51.4 per cent. Gross annual bank clearings have mounted upward from \$166,408,000,000 to \$224,338,000,000, a gain of \$4.9 per cent. Total bank deposits have increased by about \$6,500,000,000, an increase of over 33 per cent. The stool of gold in the United States has risen from \$1,818. .000,000 to \$2,439,000,000, a gain of \$4.1 per

If more reasons for defeating Wilson be desired they may be found in the following facts: In this administration the total foreign commerce of the United States has increased from \$4, 278 000,000 to \$6,531,000,000, a gain of 52.7 per cent The balance of trade in favor of the United States has bounded up from \$551,000,000 to \$2,136,000,000 a gain of \$27.6 per cent. Manufactured export have risen from \$1,020,000,000 to \$2,600,000,000, ar

increase of 155 per cent.

If the foregoing reasons for defeating Wilson are not enough, three more may be adduced: Wages paid in manufacturing industries increased during this administration from \$3,760,-000,000 to \$5,320,000,000, a gain of \$1.5 per cent. The value of manufactured products has been augmented by no less than \$9,400,000,000, an increas of 41.3 per cent. Capital employed in manufactur

of 41.7 per cent. Capital employed in manufactur-ing industries has risen from \$21,000,000,000 to \$25,-200,000,000, a gain of 30.5 per cent. Every business man, farmer and wage-earner will see the point. Everything Wilson does is wrong. Whatever happens under his administra-tion is a national calamity. Down with Wilson

THE BROKEN CHERRY BLOSSOM OF JAPAN.

HY sails are spread o'er crested wave. Thy thought is far from love and me, Faith and Hope lies in the grave, Within the heart still true to thee!

Thy babe lies on my aching breast Where passion breathed the father's sigh, The cherry lips you hotly pressed, Are wet with tears I cannot dry!

You came with smiles to Nippon's isle, I loved thee-O black memory cease! Let me not think of thy bright smile That lights the wreck of Nippon's peace!

I found thee friendless-and alone Upon a fever'd couch of pain-I held thy hands within my own And joyed to see thee live again!

I led thee where the zephyrs blew, Where birds 'midst cherry blossom's played, Where forest trees in kindness threw Their arms to comfort thee with shade!

And teach me prayers the Christians pray, You told me of your knights and men Before my virgin heart was prey! My heart! O, do not break so soon,

Throb yet awhile to love his son; Oh, Buddha! Grant to me the boon To keep the prize my sorrow won!

By, Christ, you swore to love me then

Forgive the traitor! His words were mild, He, ruthless, gave my heart to pain! His image here! Oh! his peerless child-Hush! and let me dream of him again!

Fair Nippon! Thou'rt a heathen isle Bet fair within the Orient sea; Thy cherry blossoms doth beguile The Christian heathen unto thee!

She came, she passed as a flower broken As an o'erripe grape from a tender vine, As cherry blossom off-cast-a token; That the heart of Nippon still was thine! HENRY JUNE PATER.

She be-came interested in the work in 1813 as the result of a visit naid to New gate. Her compassionate Quaker heart was filled with pity at the sad state of the inmates, especially the women prisoners. Her first success was the establishment of a school for the women convicts. Other reforms followed, and Newgate, thanks to he efforts, soon underwent a marked change. She then extended her field of activities to other prisons, and her influence was felt not alone in En

After all it is what you do for love that counts in the long run. Take the courting couple. Given a moon, a suffmer night, a soothing zephyr and what erch does not say they would sacrifice for the other, in an hour's time, is not worth saying.

What happens after Mary and John get married? In the honeymoon days, Mary would "rather die than be parted from John" for a single minute. Of course she loves him.

But how much of that love is she going to substantiate? What will she do if he loses his job? Will she weep and that or the other thing, until he gets on his feet again? Or will she make the best of it and stand by him? Will she prove her devotion by doing rather than by dreaming?

On his side, will John recognize the fact that bearing little children and ousehold cares often takes the laughter out of her eyes, reduces her beautiful form and brings the early wrinkles?

So that his moonlight waltz of love

has changed to the strong march of life, with its real test of love. Will he remember the golden heart of her when he sees her gray hairs? Will he bear with her when she is worried

Men stood on chairs and cheered, waving their hats. The President stood and bowed again and again. The applause ended when a clergyman began an invocation.

The preliminary speakers were constantly interrupted by shouts of "Wil-son! Wilson!" When the President rose the crowd, led by Gov. Dunne, stood and cheered uproarously.

"I come here tonight to address those who have newly sworn allegiance to the United States," said the President. "But I realize that I cannot do it without speaking to my own conscience and to the conscience of the other people of the nation." He pointed out that the new citizens had chosen their new allegiance.

"Within the last few months," he said, some distinctions have been drawn. A of the United States is not expected to give up his or her love for the country of their birth. But people who come to this country are expected to put their new allegiance above every other allegiance. It puts an obligation on them.
"The future of this nation depends

He added he did not mean the United States should have any part in deter-mining the terms of settlement. He spoke of the fact that many Americans are drawn from Germany, Ireland, England, France, Italy, Spain and many other nations.

Justice can no longer be cold. It is beginning to have warmth and sympathy and emotion in it. And all the problems of society are changing under our very eyes, and there is coming the time, unless I am very much mistaken, when this same quality of sympathy and mercy will come into the hitherto cold and untouched field. When nations shall agree with nations that the rights of humanity are greater than the rights of sovereignty.

New Set of Problems. New Set of Problems.

"Therefore modern society has a new set of problems to meet. It has to say, if the employer will not voluntarily establish the proper conditions of labor, the law must oblige him to establish the proper conditions of labor. If he will not voluntarily be human and fair, he must be obliged to be human and fair,"

The President made complimentary reference to a big manufacturing company which recently voluntarily established an eight-hour day without reducing pay and continued:

"The spirit of the thing is even better than the thing itself. It is the recognition of their partnership as a human spirit with the men who are doing their work.

work.
"I am happy to say that I am not singular and isolated in this, because all over the United States men have begun to have that sort of enlightened humanitarianism which ought to have been obvious from the first, that if you treat a man like a man he will work for you with a heart as well as a hand.
"There are several things which are necessary in such a society, and we ought to set all our thoughts and all our energies to accomplish these necessary things. The first thing is that the several elements of society should un-

several elements of society should un-derstand one another.
"I have said before, and I say again, that one of the things that most deeply

distressed me in the recent conference of the heads of the railways and their employes was to find that there was profound mutual misunderstanding, distrust and hostility.

"It ought not to be so. Something is wrong when the men who are working together at the same thing do not trust one aonther, and that wrong thing rests, I am profoundly convinced, upon ignorance; it rests upon not associating with each other in the kind of confernce which will enable them to under-

stand one another.

Definition of Politics.

"Politics, my friends, consists of something that you can almost express in the formula 'get together.' Try to understand what the common task is, and all take part in it in the same spirit, because politics is nothing but a systematic attempt to keep the law adjusted to the real facts, keep the law behind the real handsome, helpful, constructive forces of society, and you cannot do that unless you understand society. You cannot understand society unless you understand the component unless you understand the component parts, so that after all the formula, 'get together' lies at the base of it all, and the first step is for the elements of so-

elety to understand one another.
"But that is not all that is neces-iary. The next thing is that the ele-ments of society should understand their common relationship to the society of which they constitute a part. When I see some gentleman running amuck I am perfectly awars that they do not see am perfectly aware that they do not see that they are destroying the delicate fiber of the very thing upon which their business depends, namely, the social structure itself, and that by running recklessly against the interests of other people they are really checking the enterprise which they think they are promoting?

"If you are wrong you will get it knocked out of you and if you are right you will help knock it out of other people.

you win help knock it out of other people.

"What difference does it make that you think of a thing as a Republican if it is wrong? What difference does it make if you think of a thing as a Democrat if it is not true? Your being a Republican or a Democrat does not make it true. And what difference does a party make, or a party's interests make, as compared with the interests of the nation itself?

Woman's New Function.

"Now, it occurred to me that you

"Now, it occurred to me that you rould permit me to suggest what the particular function of woman is in this new age. Men have tried their hand at it and, in the opinion of a great many of you, have made a sad mess of it. And it must be obvious, if what I have already said is true, that the functions that have to be determined by those who lead opinion have taken on an entirely new character.
"The whole spirit of the law has been

to give leave to the strong, to give op-portunity to those who could dominate. But it seems to me that the function of But it seems to me that the function of society now has another element in it, and I believe that it is the element which women are going to supply. It is the element of mediation, of comprehending and drawing the elements together. It is the power of sympathy, as contrasted with the power of contest.

"Life is bitter only when it is lonely. Life is bitter only when it is lonely. Life is bitter only when there does not seem to be any force fighting with you except the pitiful little force that is within yourself; and if we are going to rally the forces of society, the great sympathetic, irresistible masses of women are going to play a most distinguished and leading part. And it will be so much more interesting to help a man than to hit him.

"I take leave to say that some of the difficulties of our foreign relationships in the last two years here dies."

difficulties of our foreign relationships in the last two years have been due to the fact that it was not comprehensible to some foreign statesmen that the United States was really disinterested. United States was really disinterested.
"They had never heard of such a
thing. And in proportion as the United
States demonstrated to the world that
its influence in the family of nations is
disinterested, it will have that part of
power which does not come from arms,
but comes from the great invisible powers which well up in the human heart."

GETS \$22,509,576 BACK TAXES

Internal Revenue Bureau in This Way Pays Three Years' Expenses. WASHINGTON, Oct. 20.—How the internal revenue bureau has more than paid all of its expenses of the last three years by collecting back taxes that had been fraudulently evaded is detailed in a statement issued at the Treasury Department. The amount due under the frauds uncovered totaled more than \$50,-000,000, and \$22,509,576 was recovered. This exceeds by \$2,700,000 the entire cost of collecting the country's \$1,308,000,000 of internal revenue for the three years. Of the total recovered, \$11,326,000 came from corporations which had evaded the excise tax, \$5,000,000 was for evaded income taxes, \$950,000 for evaded oleomar-garine revenues and \$984,000 from comromises of minor evasions.

Golden Bee Pins Awarded by New New York Housewives. NEW YORK, Oct. 20.—Gold pins made in the form of bees, emblematic of industry, have been adopted by the Ger-man Housewives Society here as awards to faithful domestic servants, and 24 young women are today proud possessors of them. The pins were awarded Reported by Mark C. Steinberg & Co., investment bankers, Boatmen's Bank Bidg., St to all women servants employed by members of the society for two years. Eighteen others employed for longer terms received gold rings, umbrellas or

gold coins.

The distribution was made yesterday, when the society gave a kaffee klatsch in honor of their faithful service.

M. A. A., Tired of Putting Up. Cups for Other Cities to Win, Plans to Drop Big "Classics"

ST. LOUIS POST-DISPATCH

Ten-Mile National Championship Swim, Marathon Race and Indoor Meet Come Under Athletic Committee's Embargo-"Athletics" Hope to Overthrow Plan at Election.

THAT the Missouri Athletic Association is eager to get out of the business of promoting river swims, marathon runs, and (perhaps) big indoor meets, in which out-of-town athletes are invited to compete, was admitted to the Post-Dispatch, yesterday evening, by Carl Schwartz, chairman of the club's Athletic Committee.

Schwartz, speaking for the committee, retained in some form. I admit it stated that it was their intention to drop the club's minor teams, such as have last year. I think the club ought each year to sponsor, free, as its connicipal and other leagues, to cut outsail intercity and U. S. championships, such indoor and one outdoor track event

intercity and U. S. championships, such as were formerly held under the auspices of the club, and to abandon the marathon run and 10-mile swim, unless they could be revamped into local or even club affairs.

"Does this mean that the M. A. A. will discard all its athletic members?"
Mr. Schwartz was asked.

"No, but we hope to make them over into bona-fide members, on the same basis as all the rest of us. It is our desire to promote athletics of a healther sort, at the club. We want to make members athletic, not athletic members. We are opposed to the system whereby specialists are brought in to perform in our colors. We expect to build up good athletes out of our bona-fide membership in the course of time."

Slaves to Out-of-Town Stars.

"We're tired of putting up costly trophies for athletes of other cities to win and take home. We're tired of the cities to win and the cities to the cities to

win and take home. We're tired of having to beg these allen athletes to come here and win our cups; and we're discusted with having to turn over the club to them and wait on them hand and foot, whenever they condescend to come here to compete," was the pith of Mr. Schwartz's complaint when asked for an expression of opinion as to the future of the various "classics" which the club has supported for a decade or more.

"There is NO abolition of athletics come here is NO abolition of athletics and work to be represented by bona-fide members and not straw men brought in free use of the privileges of the club. We believe athletics will have a healthy and perfuture of the various "classics" which the club has supported for a decade or more.

the club has supported for a decade or more.

"The club has paid out considerable sums to out-of-town athletes and dined them and coddled them for years. Interest in the marathon race has waned now, and the river swim is in a similar condition. We no longer feel that the expenditure is worth while. I admit that things were different once. But today not even the members take a keen interest in those features which are among those the committee is seriously thinking of abandoning—will PROBABLY drop, in fact.

"When I first undertook the duties of chairman of the Athletic Committee I was amazed to find that the club had teams representing it in various sports that neither I nor hundreds of other members of the club had ever heard of. Nobody-went out to see them play and they were dead branches. These are being lopped off."

May Be Promoted.

"Will the leador athletic means the club at the flow, the resent committee is now in the saddle, there will be a different story to the saddle, there will be a d

of abandoning—will recorded the duties in fact.

"When I first undertook the duties of chairman of the Athletic Committee I was amazed to find that the club had teams representing it in various sports that neither I nor hundreds of other members of the club had ever heard of. Nobody-went out to see them play and they were dead branches. These are being lopped off."

dropped?" Mr. Schwartz was asked.

BILLIKENS' GAME OFF:

will the indoor athletic meet be opped?" Mr. Schwartz was asked. "There is a chance that this will be opped."

Lambert in his first match draws F. J. Cassin as his opponent.

Lambert's presence will lead a great deal of interest to the tournament, which will without a doubt be the best individual event ever staged in this city. After a lot of hard work, Vierheiler has finally rounded up 24 of the classiest pin-topplers in the city.

Jerry Ameling, one of the stars of last season's tournament, and who has been on the fence for some time, has finally come around and will be in the running. Carl Glessow, Oscar Whitehead, Jule Schmitt, Louis Waldecker, Con Fuerman and Gus Randall are others, who competed in the last event, who will try for some of the high prizes this season.

Six matches are scheduled to open the tournament on Sunday afternoon, while

the Virginia Polytechnic School team tothey were scheduled to play the Illinois
College eleven. A telephone message
from Jacksonville this morning stated
that there was two inches of snow on
the ground. Illinois College asked that
the game be postponed.

Painter and his men were at the station, at the time the message was received, but word was sent to them in
time to prevent them from boarding a
train. Painter did not know, this morning, whether they would play the game
off at a later date.

He also said that he was in doubt as
to being able to arrange a practice game
for the coming week. This will give the
coach more time in which to build up his
team to his new required standard.

How Football Breeds Men.

I T was the eve before a big football game at Missouri University. The Washington eleven, which had shocked the Tigers into defeat the previous season, was the opposing machine. The Tigers HAD to win-that was all. Vindication was imperative.

The team was all made up by Coach Schulte; that is to say, it was all made up IN HIS OWN MIND-the 11 best players who by right of ability were entitled to start the battle against the Pikers

But it was not all made up, on paper. There was one vacancy in the lineup. It was at center rush, that trying position in which the workman must labor hardest, for the least praise from the unseeing pub-

For this place there were two candidates. One was Hamilton, a heavy, powerful, fast man, who had come up with a rush this year. He was the coach's choice for center.

The other was Lansing, an "M" man of two years' standing; good, but not so good as Hamilton. But he was the CAPTAIN, Bo. Get the plot?

A Test of Manhood.

THE coach thought it over; filled out the list of his choices and handed it over to Capt. Lansing for his approval.

his approval.

The center position was VACANT—
no name was written there.

"Whose name shall I write here?"
asked Schulte—it was all he could
in courtesy do. " "

Just figure for yourself, Bo. You
have worked three years with the
same team. You have worked so
hard and faithfully that you have
been made CAPTAIN. Your folks,
perhaps your best girl, will be in the
stands tomorrow to see you lead
your team. And yet you CAN'T; you
MUST not. For you know, in your
heart, that in the gruelling scrimmages day after day, Hamilton has
bested you. You KNOW that he will
accomplish more for MIZZOO than
you will, if he's in there and you are
on the side lines.

on the side lines. What would your answer be, Bo-What would your answer be, Ho—quick?
That's the way Lansing answered, quick. He said, as if it were the plainest and the easiest choice in the world to make: "Why, Hamilton plays, of course. He's a better man than I."
And yet they howl and jeer, down in Baseballdom, when you presume to think football is a better game than baseball. They

don't grow such ideals, or self-sacrificing men in the professional atmosphere of the diamond. Vindicating America.

S WEDEN may be a coming na tion, athletically, but it still has some distance to go to overtake even the rear-guard of United States progress. This was conclusively shown by the five-man team of performers which last week represented this country in an international meet at Stockholm, winning nine firsts and many places out of 13 events. The men were Bob Simpson, Andy

Ward, Ted Meredith, Joe Loomis and Fred Murray. The fact that Ted Meredith was seconds below condition accounted for two of the defeats; while in the high jump and shot-Sweden-neither Loomis nor Murray is America's best representa-

Bitter Pill for Champion.

M EREDITH'S defeats must have been humiliating to have been humiliating to this great athlete, he being beat-en in the 1000 and 800 meter races, after winning the 400 me-ter in time that was nothing ex-ceptional. In the 800-meter race, which is approximately five yards shorter

than the 880-yards dash, Meredith ran second behind Bolin in 1:58.1 Meredith's time for the longer—quarter-mile—distance is 152½, seven or eight seconds better.

Meredith should have won all three of his starts, if in condition. He has not been at his best since leaving Pennsylvania, as was shown by his defeat in the National Championships. A Meredith at his best would have meant 11 out of 12 firsts for America; while had Alma Richards and Arlie Mucks been added to the team and Ward left at home, an American team of six athletes could have captured every event from the Swedes!

When it is remembered that there are many athletes in the U. S. within mere fractions of seconds as good as those who were sent abroad, and some of them better, an idea of the athletic strength of the U. S. may be gleaned.

TEPHENS AND RAACKE STAR IN M. A. A. MEET

Francis Stephens and Norbert Raacks, two youngsters of Tom Whitaker's Missouri A. A. swimming team, were the stars of the bimonthly meet staged in the Cherry Diamond pool last night. Stephens won the 100, with a 1-second handlest, was second in the 440 and third in the 100-yard breast stroke. By this great work he scored 10 points and with 15.

In last with 15.

In last night's competition Raacke won cally one race, the 440, in which he was placed on scratch. Potthoff was the winner of the 440.

After the regular paddling team had decided its race, nonathietic members of the club competed in a series of races, of which some were hotly contested. It was the first new tank.

Tomorrow's Battle Will See Opening of Interscholastic Title Struggle.

Saturday morning will see the Central and Cleveland High School football teams clash in the first interscholastic championship game of the season. Coach Walker has his Central backfield strengthened by the return of Godfrey Bingham from the hospital. He will go in at his old position at right half and Gill Whitley will command the team from quarter, with Kershaw and O'Connor also in the backfield.

The Cleveland eleven will make its first appearance with the new backfield and great interest in being shown as to just what Coach Midkiff really has produced.

Browns' Aggressive Outfielder Will Be Unable to Play Again, It Is Feared.

Ward Miller, the Browns' regular right fielder during the past campaign, who at present is at his home in Dixon, Ill., will come to St. Louis in a short time to have an operation performed for double hernia, the outcome of an injury received while chas-ing a fly ball in the second game of ing a fly ball in the second game of the fall series with the Cardinals. This may mean that Manager Jones will be without the services of the outfielder for next year, as the operation, while not a "capital" one, may leave the player in such a weakened condition that he will be unable to take violent exercise.

If this happens to pass, Manager Jones will have to look about for a tosser to take Miller's place.

After President Tener of the Nas tional League had given out a lengthy interview in New York yesterday interview in New York yesterday, stating that the clubs in the league would have to be strengthened Owner or Britton of the Cardinals announced that he favored raising the playing limit from \$1\$ to \$2\$.

The \$M-player limit has been in existence for several years, and has not met with the approval of all the magnates, while very few managers were in favor of it.

This probably will be one of the main questions discussed by the covaries of the senior circuit as the annual meeting in December.

PRICE ASVANCE The allotment of the Metropolitan Motors Common at \$5,00 per share being almost gone, the price will positively advance on or before Oct. 22 to a much figure! The remarkable progress made by Mr. Mack has made this price at unavoidable. Buy your stock TODAY at \$5.00 per share.

An Exceptional Money-Making OPPORTUN Motor Truck Manufacturing

There is an enterprise so remarkable in its profit-earning possibilities that it should awaken the interest of every person to whose attention this announcement comes. It offers an opportunity for you to invest in a clean, conservative capitalized motor manufacturing company a few hundred dollars or less on a most profitable profit-earning basis.

are not an exception, but the rule, in the motor truck industry. Dozens of companies have paid back small fortunes to early investors, and in some instances fabulous sums have been earned from an investment of only \$100 or so. You are now offered an opportunity to secure an interest with Mr. W. C. Mack in the Metropolitan Motors, Inc. The stock of this company is being placed in small and large blocks among investors in all walks of life, including lawyers, bank presidents, merchants, manufacturers, doctors, mechanics and various others. Sufficient capital stock has been already secured to engage in the manufacture of these trucks on a profitable basis. The preliminary work has all been done, the factory secured, trucks are now under construction and being tested by the engineers of the company. The trucks are now running on the streets of New York, and will soon be seen in Boston, Chicago and other cities.

The Metropolitan Truck \$695.00 F. O. B

designed by W. C. Mack, one of the best-known and foremost truck engineers and designers in the world, promises to revolutionize the entire motor truck industry. Mr. . . C. Mack, together with his brothers, developed the Mack Brothers' Motor Company, the builders of the Mack trucks, which are seen on the streets of every community throughout the United States and in foreign countries. In fact, there is exarcely another truck in the United States that is so popular as the Mack truck. The Metropolitan Popular Priced truck, the result of his 19 years' experience in the motor truck industry, and the result of many months in designing and pefecting the truck, is so far ahead of any other motor truck made in this country selling at \$695, that there is no comparison. I am told that this truck is without doubt

The Best Built Truck in the World

Pictures of the truck and the specifications, which I will send upon request will convince you of this fact. The announcement of the new Popular Priced truck by Mr. Mack caused this office to be swamped with letters of inquiry from all over the world, and the demand has already sprung up for the truck greater than will be possible for the Company to supply this year.

Company to supply this year.

The affairs of the Company is in the hands of clean, successful business men, and is operated without an expensive overhead, and the business of the Company is carried or under the most modern, conservative, successful methods under Mr. Mack's management. The Company is incorporated with a capital stock of only \$1,000,000, all common, fully paid, non-assessable. There is no preferred issue. Each stockholder will share equally in all dividends. The possibilities of large dividends seem certain, owing to the fact that this Company is entering a field today almost untouched, and I believe it safe to say that the first 3,000 cars manufactured will pay back to the stockholder 33½ per cent of his investment. There is an opp rtunity for a few investors willing to invest a few hundred dollars at this time to secure an interest that should pay regular dividends in the very near future.

Regardless of the merits of other entomobile stock, I believe Metripolitan Motors is the very best buy on the market today. The capital zation is small, the engineering head one of the greatest in the world the management experienced, clean and successful. Trucks are now being manufactured on a basis sufficient to show tremendous profits, and there is a demand for the truck in excess of the present capacity of production. Several of my clients have visited the factory, met and talked with the officers, and ea. a and every one came away an eathus instite subscriber for the stock of the Company, many placing orders for trucks. It will pay you to investigate this proposition.

Here in America there is much suffering from catarrh and head noises. American people would do well to consider the method employed by the English to combat this insidious disease. Everyone knows how damp the English climate is and hew dampness affects those suffering from catarrh. In England they treat catarrhal deafness and head noises as a constitutional disease and use an internal remedy for it that is really very effectious.

"Let your guards sleep tonight—I will watch before your tent," said the goatherd. And on the grass he lay down to rest. About midnight there was the soft padding of feet, and the young man started up.
